SAFE TRANSPORT OF HAZARDOUS PRODUCTS

3rd December 2016

ORGANISED BY

PETROLEUM AND EXPLOSIVES SAFETY ORGANISATION

Office of the Deputy Chief Controller of Explosives
C.G.O Towers, Kavadiguda,
Secunderabad, Hyderabad
Telangana State

The safety in transportation of hazardous products such as Petroleum, LPG, Flammable liquids, chemicals etc in India needs improvement. It is the responsibility of everyone in the supply chain and strict compliance is essential to avoid accidents during transportation of hazardous products. In order to achieve this, **PESO** in collaboration with oil companies is organizing a seminar to increase awareness among various transporters, logistic service providers and emergency responders like police and fire service personnel. We are pleased to bring in together stakeholders of numerous industries to focus on **Safe Transportation of Hazardous Products**.

This one day event will provide a platform for dissemination of knowledge among industries, statutory authorities, fleet operators and policy makers through key note speeches, technical presentations, interactive discussions and case study presentations.

We welcome you to join us and be a part of presentations and discussions which will cover numerous topics such as challenges in transportation, regulations and compliance, incident investigation and case studies.

KEY SEMINAR TOPICS

- Design and safety in petroleum tankers
- Design and safety of compressed gas mobile tankers
- Accident investigations and case study presentations
- Real-time tracking and analytics for petroleum road tankers
- Energizing lives of tank lorry crew
- Safety in transportation of flammable, toxic and NTNF cylinders
- Onsite/offsite Disaster Management

THEME

***“Prepare and present,
don’t repair and repent”***

DELEGATES

- Managers/Engineers from petroleum terminals and depots.
- Logistics and operations managers.
- Transporters of petroleum products.
- Emergency response crew.
- Officers from statutory departments.
